Mega book of combat aircraft

This title is full of great photographs and indepth diagrams coving topics such as: The combat aircraft close-up; Trainer/light-attack aircraft; Fighter/attack aircraft; Ground-attack aircraft; Bombers; Special-mission aircraft; Helicopters and Multi-role aircraft.

Tunnels by Roderick Gordon

Fourteen-year-old Will Burrows lives with his family in London. He has little in common with them except for a passion for digging which he shares with his father. When Will's father suddenly disappears down a tunnel, Will with his friend Chester find themselves investigating deep underground where they unearth a dark and terrifying secret – a secret which may cost them their lives...

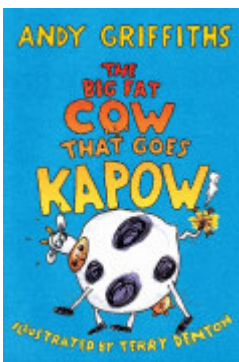

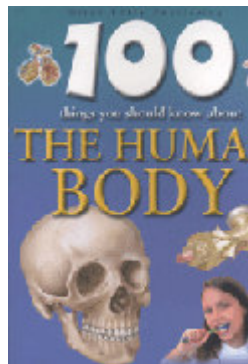

First book of Fire trucks and Rescue vehicles

A bright, fun book about firetrucks and rescue vehicles for young readers. Includes lifeboats, rescue helicopters and motorbike patrols.

100 things you should know about The Human Body

This book will take readers on a guided tour of their body systems. Young minds will be amazed by fascinating facts about vital organs, bendy bones and the pulling power of muscles.

The big fat cow that goes Kapow by Andy Griffiths

Another great title by Andy Griffiths. This rhyming poem with hilarious pictures by Terry Denton is a neat read for all ages.
